Engineer:

Location:

Date:

Owner's Tank Designation									
Tank Material									
Tank Type									
Duplex Tank					Duplex Pipe Flushed				
Tank Measurements (m/m³)									
Width		Height		Length		Volume			
Pre-clean Chlorination									
Required	Y/N	Biocide	Volume	ppm	Contact				
Part		Material		Condition Good-Poor		Informative Comments			
Tank Body									
Internal Structure									
External Structure									
Lids/Hatches									
Lid									
Inspection Hatch									
Valves									
Isolation Valve									
Inlet									
Ball									
Outlet									
Insulation									
Outer insulation									
Pipe Insulation									
Post-Clean Disinfection									
Water pH			Biocide Used			Volume Used			
Contact Time			Initial Biocide Level			End Biocide Level			
Neutralisation Performed			Neutraliser Used			Neutraliser Volume			
System Reinstatement									
Tools Removed		Refilled		Brought Online		Sample Taken		Handed Back	
Additional Comments
